

500kW Lithium Battery Energy Storage Cabinet for France Hospital

Overview

What is A 500KW Megatron battery storage system?

500kW MEGATRON - 20 foot Containerized Commercial Battery Energy Storage System designed to for On-Grid and Renewable Energy Projects.

What voltages are available for a battery energy storage system?

All system systems are offered with either 400VAC or 480VAC 3 phase interconnect voltages. Each commercial and industrial battery energy storage system includes Lithium Iron Phosphate (LiFePO₄) battery packs connected in high voltage DC configurations.

What is a p500e energy storage system?

The P500E has a modular design with a built-in STS and transformer. With the P500E, you can transfer energy bi-directionally to the battery, grid and DG, helping you to achieve more functionality and maximise the benefits of your energy storage system.
