

# 50kw modular outdoor cabinet for wastewater treatment plants

## Overview

---

What is a modular wastewater treatment plant?

The Modular wastewater treatment plant is the most reliable, maintenance-free method of wastewater treatment available for commercial, industrial or small municipal applications. With system capacities ranging from 1,500 to 500,000 gallons per day, Modular plants are pre-engineered to accommodate current, as well as future treatment needs.

What are modular water systems equipment packages?

Modular Water Systems equipment packages remove the guesswork and tedious time-consuming tasks of selecting the right equipment for each specific sub-assembly that when assembled, must integrate into a complex and proper functioning water infrastructure system.

What is kac50dp-bc100de Battery Cabinet?

The battery cabinet has 2\*50KWH (51.2kwh) battery outdoor cabinet ESS solution (KAC50DP-BC100DE) is designed for small to medium size of C&I energy storage and microgrid applications. Max. Input Voltage.

Why should you choose a modular wastewater treatment system?

The modular structure allows flexible scaling and low-cost expansion if project demands change over time. Containerized systems can be easily transported anywhere in the world, by land or by sea and can be installed in remote and isolated areas. Our portable wastewater treatment systems are engineered for maximum performance in every climate zone.
