

Quotation for a standard power scale outdoor telecom enclosure project for rural areas

Overview

What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

Why should you choose Shield for your outdoor telecom enclosure?

This solution is also ideal for rapid deployment at the network edge. SHIELD offers a wide range of customization features for your outdoor telecom enclosures such as machining, special dimensions, custom colors, and additional protection for harsh environment.

What is an outdoor Telecom shelter?

Outdoor telecom shelters address various communication housing needs, from quick set up time to weather protection. Customer adapted shelter solutions serve a range of telecom applications from incoming AC to complete solutions for different sites in the network.

What are the features of our enclosures?

Versatile installation features: Our enclosures have two universal wall and pole mounting brackets and an adjustable and removable back plate. This construction allows for smooth installation on various surfaces and integration of equipment inside or outside without drilling additional holes.
