

Romania solar energy storage cabinet lithium battery station cabinet wholesaler address

Overview

What is Romania's largest battery project?

Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date. The company will build a 400 MWh facility in Florești, Cluj county, which is expected to be operational by the end of 2025.

Does Romania have a double taxation of stored electricity?

Romania's National Energy Regulatory Authority (ANRE) recently eliminated the double taxation of stored electricity. The new rules exempt electricity stored and then reinjected into the grid from several tariffs, removing a significant financial barrier for investors.

Will Trina supply Elementa 2 battery cabinets to the Toplița project?

Trina Storage announced it will supply Elementa 2 battery cabinets to the Toplița project as part of the overall system architecture, with the project is being delivered under a strategic contract between Trina Storage and Allview, as part of the broader collaboration on the Renovatio initiative.

How much storage capacity will Romania have in 2025?

This single project will double Romania's current installed storage capacity of 398.8 MWh, a figure that comes from transmission system operator Transelectrica, and mentioned by Romania's energy minister Sebastian Burduja in April, 2025.
