

Shopping malls use Belgian outdoor energy storage cabinets for fast charging

Overview

How much EV charging power is available in Belgium?

As of today, 2.18 TW of EV Charging power are publicly available in Belgium. The graph below shows that fast charging delivering power of 100 kW or more has emerged in the last 12 months. As of 2024, there are 3,162 fast chargers in the country, an impressive 118,97% growth in a short 12-month period.

Why is Belgian ultra-fast charging so popular?

AC charging can be used on the go in retail parking, when shopping or going to the restaurant. Moreover, as an AC charging session takes longer, the time-based use rate is logically higher than DC charging. To conclude, Belgian ultra-fast charging has experienced rapid growth in the past two to three years.

How many EV charging points are there in Belgium?

The share of BEV newly registered cars keeps increasing, from 10% in 2022 to 20% in 2023 and reaching 25% in 2024. With EV sales booming in the country, Belgium is expanding its public EV charging infrastructure. Consequently, as of Q3 2024, there is a total of 77,443 publicly accessible charging points.

What is fast charging in Belgium?

As seen on the graph, fast charging accounts for 30% of the total power available in publicly available charging in Belgium as of 2024, its share increasing every year but with a notable growth in 2023. The market has evolved rapidly towards fragmentation, as observed in France. About 60 CPOs are now offering fast charging in Belgium.

Shopping malls use Belgian outdoor energy storage cabinets for fast

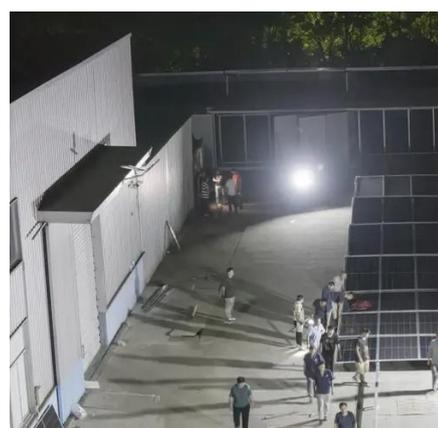

[Commercial and Industrial Energy Storage Cabinet ...](#)

Wide Applicability: Compatible with standalone energy storage stations, commercial/industrial user-side systems, microgrids, and renewable ...

[Powering Malls: Smart Energy Storage Solutions for Savings, ...](#)

From medium-voltage automation to EV charging networks and prefabricated substations, our systems ensure stable, efficient, and future-ready power distribution.

[Belgium solidifies its position as a fast-charging hub: How did it](#)

The Belgian government, aware of the importance of robust infrastructure to support the rise of electric mobility, has set ambitious targets for the development of the fast ...

[Best Commercial EV Charging Stations for shopping malls in 2025](#)

By providing cutting-edge commercial charging solutions, they help malls seamlessly integrate EV infrastructure that supports reduced emissions

and sets a benchmark for sustainability. Their ...

[Shopping Malls as Energy Storage Hubs: The Untapped Potential ...](#)

While you're sipping caramel macchiatos and trying on sneakers, the shopping mall beneath your feet is quietly stockpiling enough energy to power entire city blocks. Sounds ...
