PowerChina is building three hybrid solar microgrids in Suriname, combining solar panels, energy storage, and diesel backup to power 25 remote villages across the country. The construction of three hybrid solar energy plants to serve 25 villages in Suriname is underway. Work began in December on a.

On April 25, local time, Suriname's vice-President Ronnie Brunswijk, along with Minister of Natural Resources David Abiamofo, attended the inauguration and lighting ceremony of the Botopasi Microgrid Project. The project is part of the second phase of the Suriname Village Microgrid Solar Project.

Twelve remote villages in the Suriname forest now enjoy continuous power thanks to a new microgrid initiative. Once complete, the Suriname Village PV Microgrid Project will consist of five microgrids with a total generation capacity of 5,314 MWh, serving 34 villages. In 2019, POWERCHINA initiated.

BEIJING, June 3, 2024 /PRNewswire/ -- Power Construction Corporation of China ("POWERCHINA" or "the Company") officially handed over the first site of the second phase of a microgrid photovoltaic project in Suriname on April 6, 2024. His Excellency Mr. Chandrikapersad Santokhi, President of the.

PARAMARIBO, April 11 (Xinhua) -- The rural microgrid photovoltaic project, undertaken by Power Construction Corporation of China (PowerChina) in Suriname, is in line with the country's energy strategy and has improved the lives of people in disadvantaged inland areas, said Suriname's Minister of.

Suriname is embracing renewable energy innovation with PowerChina's pioneering

hybrid solar systems project. This advanced microgrid combines solar PV with backup diesel generation, marking a major step toward energy independence while ensuring grid reliability. The country's shift from diesel.
